

# NEURO SEMINAR SERIES

SPRING 2021

## Nicholas Gilpin PhD

Professor of Physiology & Neuroscience  
Vice Chair of Research in Physiology  
D'Angelo Professor of Alcohol & Drug Abuse  
Associate Director, Alcohol & Drug Abuse Center  
PI in BLRD/CSRD Intramural Program at SLVHCS (V.A.)  
LSU Health Sciences Center

### Amygdala is a hub for traumatic stress effects on behavior

---

Traumatic stress alters the brain and behavior in some, but not all, animals and humans. This talk will describe basic science data that illustrate stress-induced behavioral changes and their neurobiological mediators in subpopulations of animals with high traumatic stress reactivity.

Thursday, April 1  
4 PM  
Zoom
